

WHAT IS ITHESIS & ENDNOTE

WHAT IS ITHESIS

iThesis is a system that students are required to use in order to keep track of your thesis and digitalized approval system, while keep in mind that paper and formalities outside of the iThesis system are still required. In other word, iThesis serves as a way for Graduate school to easier process your thesis and proceed with graduation more effectively. In doing so, it requires a lot of parties involved, not only you, faculty staffs, and Graduate school, but also your entire committees.

(Only available on Windows).

HOW TO USE ITHESIS

- Student must log into iThesis on <https://ithesis.grad.chula.ac.th/> and download iThesis Microsoft add-in on the same website.
- For further details on iThesis tutorials, please visit <https://ithesis.grad.chula.ac.th/> and click "Tutorials" on the top of web page.

WHAT IS ENDNOTE

EndNote is a program for organizing and managing bibliographies which the Office of Academic Resources (OAR), purchased for Chulalongkorn Community to use on a single computer (Windows and Mac OS).

HOW TO USE ENDNOTE

- Please download EndNote Microsoft add-in form <https://www.car.chula.ac.th/endnote.php>
- For further details on EndNote tutorials, please visit this link <https://www.car.chula.ac.th/endnote.php>

Please use EndNote for organizing and managing bibliographies from the very first step of your thesis writing for your own convenience.
